Introduction:

Wadmavli Lok Vikas Manch is a non governmental organization working since last 25 years in Beed and Pune district of Maharashtra for the betterment and welfare of the people, in the field of Women empowerment,Children education, Skill development, Organic farming, Drought relief program me and COVID-19 relief programme. The main motive of the organization is to help deprived, underprivileged, backward and vulnerable sections of the society. It was established with the aim to serve deprived people in a holistic manner, enabling them to live active, dignified and healthier lives. Large number of people in rural and urban areas of Beed and Pune district are deprived from quality healthcare. Wadmavli Lok Vikas Manch advocates for their needs. It works hand in hand with rural and urban people of the two districts of Maharashtra.

About the organisation:

It was established by Mr.Bhaskar Annasaheb Munde in the year 2000 and is registered under the societies Registration Act of 2000. It was established with the aim to serve deprived people in a holistic manner, enabling them to live active, dignified and healthier lives. Large number of people in rural and urban areas of Beed and Pune district are deprived from quality healthcare. Wadmavli Lok Vikas Manch advocates for their needs. It works hand in hand with rural and urban people of the two district of Maharashtra.

AIM:

To serve deprived people in a holistic manner, enabling them to give active, dignified and healthier lives.

VISION:

To empower women, children and deprived people of the rural society and through their development provide equal opportunity to enable them to live their life with dignity and self respect.

MISSION:

To ensure equal opportunities to deprived, backward and tribal communities and to accerlate the process of socio- economic and educational change in the society through development.

The yearly work report of the organization for the year 2022-23 is as follows:

1) Skill development program :

Image: Skill development training session at katraj center,Pune

Introduction:

As Prime Minister Narendra Modi's vision of creating a skilled India, Maharashtra has emerged as the top performing state in imparting Skill Training to over a million youths in the National Skill Development Corporation's (NSDC) Skill India Mission in the recent years. According to NSDC figures over a million youths have been trained across 40 sectors in the 15-59 age group since 2011. The most popular courses include tailoring, financial literacy, beautician training, insurance agent and IT supported services. Maharashtra has the second largest state population in the country. Its 59 per cent population falls in the working-age group, while only 45 per cent is in the labour force.

I) Skill development program implemented by Wadmavli Lok Vikas Manch:

Under this program me, we had started Skill development center on 01 January 2019. In this initiative, we trained undergraduate and graduate students and gave them knowledge about computer basics, retail management, personality development, financial literacy, English speaking course, tally, data entry work etc.

From 01 January 2022 to 31 July 2023, we had divided students into 20 batches, as in accordance with one batch for three months as for whole year categorized in quarterly basis and by now, we had trained 720 well educated unemployment students, and had helped 470 students to get a decent job in malls, companies, restaurants etc. As soon as one batch of students complete the given course, we provide them opportunities to work and helps them to get a job in different institutions/companies. Our main focus rests on providing skill training to these students and get them a job and make them self reliant/dependent.

Our core objectives:

- i) To provide training to these educated unemployment students and to help them to get a decent job.
- ii) To make the youth self-dependent and self-reliant..
- iii) To build the confidence of the students through Spoken English Education and Personality Development as they could ace the difficulties in the future.
- iv) To try and abolish the unemployment rate and to fill up the gap between employment and unemployment rate.
- v) To boost and increase the employment rate of the country in skill development sector.

2) Children's Education program:

Introduction:

About 65% of all school-going children in 20 states, about 113 million, continue to get their education from government schools, according to District Information System for Education (DISE) and education Ministry data. Despite the Rs 1.16 lakh crore spent on Sarva Shiksha Abhiyan (SSA)—the national program for universal elementary education—the quality of learning has declined. Much of educational inequality is attributed to economic disparities. More times than not, individuals belonging to these marginalized groups are also denied access to the schools with abundant resources. Inequality leads to major

differences in the educational success or efficiency of these individuals and ultimately suppresses social and economic mobility.

Children's education program implemented by Wadmavli Lok Vikas Manch:

Under this program, we had started English Pre-Primary School for deprived, underprivileged, and backward class children who are deprived from school and can't afford to take education due to their poor financial conditions. We had started this initiative on 01 April 2021, at the location of Kalepadal, Hadapsar in Pune.

The main motive of this initiative is to give quality English education to these children and to make them educationally strong so that they can cope up with the private school students in this modern era. As far now, 450 students had enrolled and are admitted in our school. These students are provided with the all necessary tools and stationary that is required for the modern quality English education. The teachers are well educated to teach these students.

Our core objectives:

- i) To provide with the quality English Education to the students involved in the said project.
- ii) To make these children well equipped with English language.
- iii) To boost the confidence of these deprived children.
- iv) To make these children realized their true potential that is within them, so that they can compete with the private English School children.
- v) To make the children's Education base strong so that they couldn't lack in the academics in the future education.

3) STeP Program implemented by Wadmavli Lok Vikas Manch

Under this STeP program, we have successfully implemented two most important projects namely healthcare project and Bajaj finserv project.

We have started this initiative from 01st August 2022 to 31st July 2023.

We have started this program on 16 August 2022 till 15 August 2023. We have identified the unemployed youths and had made them capable and had provide them guidance and training. In addition to this we also helped them to get a job based on the training and skill.

We have started this program in Kondhwa, Pune (Maharashtra).

There are around 40 students in one batch. The period of one batch is of three months. As we have made four batches, three month for one batch. Till now, we have trained 160 students in a span of one year. We have helped these students to get placed and get a decent job. Our placement is 120 students under this initiative of Bajaj Finserv program.

Our core objectives:

- i) To provide training to these educated unemployment students and to help them to get a decent job.
- ii) To make the youth self-dependent and self-reliant..
- iii) To build the confidence of the students through Personality development and made them skilled candidates as they could ace the difficulties in the future.

iv) To try abolish the unemployment rate and to fill up the gap between employment and unemployment rate.

v) To boost and increase the employment rate of the country in skill development sector.

4)Organic Farming program:

Introduction:

Wadmavli Lok Vikas Manch (WLVM) is successfully implementing project namely **“Development of farmers through Organic Farming”** since from last 9 years in 10 targeted villages of Beed block of Beed district in Maharashtra. Around 506 farmers in targeted villages are cultivating their farm land as organic farming by implementing this project. All these 510 farmers from 10 targeted villages got training and knowledge about organic farming by expert trainers as well as farmers awaked about benefits of organic farming, also farmers made organic compost of their self and they have enough knowledge that how to make compost with proper quantity of liquid and other material hence, farmers are now practicing organic farming with minimum expenses and earning more profit. Also from target areas, men and women formed their SHG's and with financial help of SHG they had started their small scale business which is allied with their farmig.

Organic Farming program implemented by Wadmavli Lok Vikas Manch:

During project implementation, and as per project plan project team conducted meetings, village camps with target group of farmers in which project team shared information with farmers about Well and Borewell recharge methods & it's benefits. Also, project team showed that need of water management and harvesting through well & borewell recharge in future, as well as team did practical of Well and Bore well recharge method in village for better understanding of farmers & they will easily done in their area.

As per project plan 20 groups of farmers (Mandal's) has been formed in 10 targeted villages in which 366 farmers are enrolled as members of group and they are running their farmer group with spirit. Also, all member's saving their money in these 20 groups regularly, after formation of these farmer Mandal's WLVM linked these group's with ATMA Scheme of Agriculture Department of Govt. of Maharashtra. Under ATMA scheme all the group of farmers got certification of their group. After certification of group and as per Govt. guidelines, project team opened all the groups account in nationalized bank for transformation of work.

As next step after registration of farmer group, project team started to apply for many schemes of Govt. which is running form farmers as like tractor assistance, seed, fertilizer, JCB machine, farm pond, solar pump and farming tools etc. Because of farm pond dug in their farm land farmers could store enough water in their farm and would use it as per there need. Under ATMA scheme of agriculture department 283 farmers from target group got benefited through PVC pipes, 3 farmers got diesel engine as well as some of farmers got irrigation tools hence farmers could get support to reduce their stress of timing and farming.

Now they don't have to spent more time to give water for crop therefore farmers could do other activities. To get drip irrigation benefit, project team applied 35 applications of farmers to get benefit of drip irrigation system and project team got success that all the 35 application were approved hence now farmers could save water and getting extra benefit with enough water utilization.

Training session of organic farming being conducted by Wadmavli Lok Vikas Manch

Our core objectives:

- i) To train the farmers for Borewell and Well recharge.
- ii) Formation of farmers mandals and linking them with the bank and agricultural departments.
- iii) Promoting farmer mandals participating in Organic Farming.
- iv) Motivating farmers to follow community farming.

v) To motivate farmers to get /apply for insurance of their crops/farmers under PM insurance scheme.

vi) Disseminate information of government scheme's to farmers and to share with them to get that benefits from government.

5) Women's empowerment programme:

Introduction:

Almost every country, no matter how progressive has a history of ill-treating women. In other words, women from all over the world have been rebellious to reach the status they have today. While the western countries are still making progress, third world countries like India still lack behind in Women Empowerment.

Women empowerment program meeting being conducted by Wadmavli Lok Vikas Manch

Women empowerment program implemented by Wadmavli Lok Vikas Manch:

Under this initiative, we have formed 150 Self-help groups (SHG's) in rural area of Beed district. In addition to that, we have also formed 3000 women organization, and had trained 1500 women entrepreneurs to start small and medium businesses and made them self-dependent. Our main focus and motive is to make women self reliant.
