Introduction:

Wadmavli Lok Vikas Manch, established in 2000, is a non-profit organization committed to fostering inclusive growth and sustainable community development. Rooted in the belief that progress begins at the grassroots, our initiatives focus on skill development, children's education, women empowerment, organic farming, and drought relief programs.

Over the years, we have worked closely with youth, children, women, and farmers, empowering them with knowledge, resources, and opportunities to build a self-reliant and progressive future. Our approach emphasizes capacity building, community participation, and environmentally responsible practices that create lasting social impact.

Through continuous collaboration with local communities, government agencies, and partner institutions, we strive to create an environment where every person has access to education, sustainable livelihoods, and equal opportunities. We are dedicated to fostering self-reliance, gender equality, and environmental sustainability, ensuring holistic and inclusive growth for all. With over two decades of committed service, Wadmavli Lok Vikas Manch continues to stand as a pillar of hope and transformation—working tirelessly towards building stronger, empowered, and self-sustaining communities.

About the Organisation

Wadmavli Lok Vikas Manch is a registered non-governmental organization founded in the year 2000 with a vision to empower rural communities and promote sustainable development. Over the years, the organization has been actively engaged in uplifting the socio-economic conditions of marginalized groups through initiatives focused on skill development, children's education, women empowerment, organic farming, and drought relief programs.

At Wadmavli Lok Vikas Manch, we believe that true progress stems from empowering people at the grassroots level. Our programs are designed to equip individuals—particularly youth, women, children, and farmers—with the knowledge, skills, and confidence needed to lead independent and productive lives.

AIM:

To serve deprived people in a holistic manner, enabling them to give active, dignified and healthier lives.

VISION:

To empower women, children and deprived people of the rural society and through their development provide equal opportunity to enable them to live their life with dignity and self respect.

MISSION:

To ensure equal opportunities to deprived, backward and tribal communities and to acceralate the process of socio- economic and educational change in the society through development.

The yearly work report of the organization for the year 2023-24 is as follow:

1) Skill development program

The Skill Development Program of Wadmavli Lok Vikas Manch is designed to empower individuals—especially youth and women—by providing them with practical, market-relevant skills that open pathways to sustainable livelihoods. Recognizing the growing need for employment and entrepreneurship opportunities in rural areas, the program focuses on bridging the gap between education and employability through hands-on training and capacity-building initiatives. Through this program, we aim to nurture self-reliance and financial independence by equipping participants with skills in areas such as tailoring, computer literacy, handicrafts, sustainable agriculture practices, and small-scale entrepreneurship. Our training sessions are conducted by experienced professionals and local experts, ensuring that the learning is both relevant and easily adaptable to community needs. Beyond technical skills, the program also emphasizes soft skills development—such as communication, leadership, and financial literacy—to help individuals build confidence and succeed in today's competitive world. By promoting entrepreneurship and self-employment, we strive to create not just skilled individuals, but empowered change-makers who contribute meaningfully to their families and communities. Through the Skill Development Program, Wadmavli Lok Vikas Manch continues its mission of transforming potential into progress—paving the way for a stronger, self-sufficient, and inclusive society.

- **Skill development program me implemented by Wadmavli Lok Vikas Manch:**

Under this program me, we had started Skill development center on 01 January 2019. In this initiative, we trained undergraduate and graduate students and gave them knowledge about computer basics, retail management, personality development, financial literacy, English speaking course, tally, data entry work etc.

From 01 April 2023 to 31 March 2024, we had divided students into 4 batches, as in accordance with one batch for three months as for whole year categorized in quarterly basis and by now, we had trained 280 well educated unemployment students, and had helped 217 students to get a decent job in malls, companies, restaurants etc. As soon as one batch of students complete the given course, we provide them opportunities to work and helps them to get a job in different institutions/companies. Our main focus rests on providing skill training to these students and get them a job and make them self reliant/dependent.

- **Our core objectives:**

Objectives of the Skill Development Program

1. To provide youth and women with practical, job-oriented skills that improve their chances of gaining meaningful employment or starting self-owned enterprises.

2. To empower individuals to become financially independent through vocational training and entrepreneurship development.

3. To align local talent with the current needs of industries, agriculture, and small-scale businesses by offering relevant and updated training modules.

4. To inspire and support participants in establishing micro or small enterprises, thereby creating local employment opportunities within their communities.

5. To provide women and disadvantaged sections of society with equal access to skill-building programs, enabling social and economic upliftment.

6. To contribute to holistic development by building a skilled and confident workforce that drives positive social and economic change.

2) Children's Education program

- **Introduction:**

The Children Education Program of Wadmavli Lok Vikas Manch is a cornerstone initiative aimed at ensuring that every child, regardless of their socio-economic background, has access to quality education and equal learning opportunities. We believe that education is the most powerful tool for breaking the cycle of poverty and shaping a brighter, more equitable future for society. Through this program, we work to reach underprivileged and rural children who often face barriers such as lack of resources, poor infrastructure, or limited access to schools. Our efforts focus on improving learning outcomes, reducing dropout rates, and fostering a love for learning through creative and inclusive educational approaches.

The program provides academic support, school supplies, awareness sessions for parents, and extracurricular activities that contribute to a child's holistic development. Special emphasis is placed on building foundational literacy and numeracy skills, promoting digital learning, and nurturing life skills that prepare children for the challenges of the modern world.

- **Children's education programme implemented by Wadmavli Lok Vikas Manch:**

Under this programme, we had started English Pre-Primary School for deprived, underprivileged, and backward class Children who are deprived from school and can't afford to take education due to their poor financial conditions. We had started this initiative on 01 April 2023, at the location of Kalepadal, Hadapsar, Pune.

The main motive of this initiative is to give quality English education to these children and to make them educationally strong so that they can cope up with the private school students in this modern era. As far now, 150 students had enrolled and are admitted in our school. These students are provided with the all necessary tools and stationary that is required for the modern quality English education. The teachers are well educated to teach these students.

- **Our core objectives:**

1. To provide equal opportunities for quality education to underprivileged and rural children, ensuring that no child is deprived of learning due to financial or social barriers.

2. To strengthen foundational literacy and numeracy skills and enhance overall academic performance through innovative and child-centered teaching methods.

3. To identify and support children at risk of leaving school by offering counseling, financial assistance, and community awareness initiatives.

4. To nurture children's physical, emotional, and social growth through extracurricular activities, moral education, and life skills training.

5. To introduce children to basic digital literacy and technology-based learning tools, preparing them for the demands of the modern world.

6. To ensure that both girls and boys have equal access to educational opportunities, fostering inclusivity and empowerment from an early age.

3) Organic Farming programme:

- **Introduction:**

The Organic Farming Program of Wadmavli Lok Vikas Manch is a vital initiative dedicated to promoting sustainable agricultural practices that protect the environment, enhance soil fertility, and improve the livelihoods of farmers. Recognizing the challenges faced by rural farming communities due to erratic weather conditions, rising input costs, and declining soil health, this program aims to reintroduce eco-friendly and cost-effective farming techniques rooted in traditional wisdom and modern innovation. Through this initiative, we encourage farmers to adopt organic methods such as composting, bio-fertilizers, crop rotation, natural pest control, and water conservation techniques. The program focuses on reducing dependency on chemical inputs while improving productivity and ensuring long-term soil and ecological balance. Training workshops, on-field demonstrations, and farmer exchange programs are organized to share practical knowledge and successful case studies. Farmers are also supported in obtaining organic certification and market linkages to ensure fair pricing for their produce.

By promoting organic farming, Wadmavli Lok Vikas Manch not only strengthens the economic resilience of rural farmers but also contributes to environmental conservation and community health. Our vision is to build a future where agriculture is sustainable, farmers are self-reliant, and consumers have access to safe and nutritious food grown in harmony with nature.

- **Organic Farming programme implemented by Wadmavli Lok Vikas Manch:**

During project implementation, and as per project plan project team conducted meetings, village camps with target group of farmers in which project team shared information with farmers about Well and Bore Well recharge methods & its benefits. Also project team showed that need of water management and harvesting through well & Bore well recharge in future, as well as team did practical of Well and Bore well recharge method in village for better understanding of farmers & they will easily done in their area.

As per project plan 20 groups of farmers (Mandal's) has been formed in 10 targeted villages in which 390 farmers are enrolled as members of group and they are running their farmer group with spirit. Also all member's saving their money in these 20 groups regularly, after formation of these farmer Mandal's WLVM linked these group's with ATMA Scheme of Agriculture Department of Govt. of Maharashtra. Under ATMA scheme all the group of farmers got certification of their group. After certification of group and as per Govt. guidelines project team opened all the groups account in nationalized bank for transformation of work

As next step after registration of farmer group, project team started to apply for many schemes of Govt. which is running form farmers as like tractor assistance, seed, fertilizer, JCB machine, farm pond, solar pump and farming tools etc. . Because of farm pond dug in their farm land farmers could store enough water in their farm and would use it as per there need. Under ATMA

scheme of agriculture department 135 farmers from target group got benefited through PVC pipes, 8 farmers got diesel engine as well as some of farmers got irrigation tools hence farmers could get support to reduce their stress of timing and farming.

Now they don't have to spent more time to give water for crop therefore farmers could do other activities. To get drip irrigation benefit, project team applied 73 application of farmers to get benefit of drip irrigation system and project team got success that all the 38 application were approved hence now farmers could save water and getting extra benefit with enough water utilization.

- **Our core objectives:**

- i) To train the farmers for Borewel and Well recharge.
- ii) Formation of farmers mandals and linking them with the bank and agricultural departments.
- iii) Promoting farmer mandals participating in Organic Farming.
- iv) Motivating farmers to follow community farming.
- v) To motivate farmers to get /apply for insurance of their crops/farmers under PM insurance scheme.
- vi) Disseminate information of government scheme's to farmers and to share with them to get that benefits from government.

4) Women's empowerment programme:

- **Introduction:**

Women Empowerment Program

The Women Empowerment Program of Wadmavli Lok Vikas Manch is dedicated to promoting gender equality and enabling women to become self-reliant, confident, and active contributors to society. Recognizing the social and economic challenges faced by women in rural and marginalized communities, this program aims to provide them with the knowledge, skills, and resources necessary to lead independent and dignified lives.

Through this initiative, women are trained in vocational skills, entrepreneurship, financial literacy, and leadership, enabling them to access income-generating opportunities and take control of their economic futures. The program also focuses on building awareness about women's rights, health, and education, empowering participants to make informed decisions for themselves and their families.

By fostering self-confidence and promoting participation in community decision-making, the program encourages women to become catalysts for positive social change. Mentorship, peer support networks, and exposure to successful role models are integral components of this initiative, helping women overcome barriers and pursue personal and professional growth.

The Women Empowerment Program of Wadmavli Lok Vikas Manch envisions a society where women are valued, respected, and equipped to contribute meaningfully to their communities, thereby creating a more equitable and inclusive world.

- **Women empowerment programme implemented by Wadmavli Lok Vikas Manch:**

Under this initiative, we have formed 157 Self help groups (SHG's) in rural area of Beed district. In addition to that, we have also formed 3013 women organisation, and had trained 1650 women entrepreneurs to start small and medium businesses and made them self dependent. Our main focus and motive is to make women self reliant.

- **Our core objectives:**

- i) To make the women self reliant and self dependent.
- ii) To train women of rural area and make SHG's.
- iii) To encourage women to start their own business.
- iv) To provide them training in various fields.
